BITS & PIECES -

VK5CE/8, BATHURST ISLAND OC-173 -
Craig, VK5CE updates on his planned activity from Bathurst Island OC-173:
Its only a month before the VK5CE/8 Bathurst Island OC-173 DXpedition takes place and everything is going to plan. Last weekend I cut and tested new vertical dipoles to use for the DXpedition.
Flights from Adelaide in South Australia to Darwin in the Northern Territory and then the charter flight from Darwin to Bathurst Island have been paid for. The costs of hiring the facility on the island have also been paid for. The flight charter company have approved the weight of equipment needed and the island operators at Bathurst Island Lodge have confirmed that I will be the only guest at the lodge so I can set up vertical dipoles at the high tide mark of the beach and I'll have the whole place to myself.
